MEMORANDUM FOR: Mr. Lloyd

1. You will recall that in a recent review of the actions taken by the Office of Logistics to comply with recommendations made by the Inspector General, comments were made to the effect that the Comptroller and the Director of Personnel had been asked last June and July, respectively, to furnish certain information but had not as yet done so.
2. You then sent letters to both the Comptroller (Tab A) and the Director of Personnel (Tab B) asking for information on these items, and we now have received replies.
3. The Comptroller advises that information in his office is not sufficiently detailed to permit furnishing the information required by Logistics to meet their requirements (Tab C).
4. The Director of Personnel advises that they could comply with the request of the Office of Logistics but, as they advised Logistics last July, it would involve a considerable change in the routing procedures to transmit the documents requested, and they prefer to wait until the staffing pattern concept has been finally adopted and procedures implemented. He notes, however, that Logistics Office is provided with a monthly alphabetical listing of all members of the Logistics Career Service by grade and by office of assignment and will provide, effective 1 February, copies of Form SF-50 concerning LO or SL career designees not assigned to the Office of Logistics. (Tab D)
5. Logistics has received a direct reply from the Comptroller, and I furnished [] a photostat of the memorandum from Personnel.
6. I wonder if any action is required other than commenting to the Director of Logistics that you presume this takes care of his immediate problem. I have prepared a memorandum of transmittal for your signature. If you agree, recommend signature.
